

From I-90 Take the Hiway 12/14/18 Madison Exit. Follow directions below.

From Hiways 12, 18 14 and 151 (the Beltline) take the Park Street exit. Go north on Park Street quite a ways. (You can't go south.) Make a left at the signal for Vilas Avenue and West Washington Street. You will be turning into a residential neighborhood. There is a green and yellow BP gas station on the left corner.

Go about 8 blocks or so on Vilas Avenue. You will begin to see a circle park in front of you. Drive to the right of the circle. My house, 1526 Vilas Avenue, is on the far side of the park on the right side. You may park on the street.

From the West Side of Madison: Take Odana Road to Monroe Street. Go north on Monroe Street. When you get to the signal at Grant Street, make a right turn. Directly before you reach the Grant Street signal will be an empty storefront (Ken Kopp's grocery), Neuhauser Pharmacy and some other neighborhood businesses.

Drive four blocks or so on Grant Street. Make a left on Vilas Avenue. Go one block. My house, 1526 Vilas Avenue, will be on your left on the corner of the circle park. You may park on the street.

From the East Side of Madison: Take East Washington* around the Capitol Square. Turn right on West Washington. At the Park Street signal, West Washington becomes Vilas Avenue (the Amoco station will be on your right). Drive straight through the signal onto Vilas and drive several blocks. You will begin to see a circle park in front of you. Drive to the right of the circle. My house, 1526 Vilas Avenue, is on the far side of the park on the right side. You may park on the street.

*You can also access West Wash via Willy Street, then John Nolen Drive and a right on North Shore/Proudfit Street (which becomes Regent St)

Note: *My house is a mushroom colored, two story house with the house numbers on the green front door. See you there!*
